

DAYTON INDEPENDENT SCHOOLS

Mr. Mark Pfau,

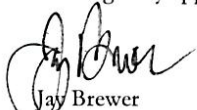

8/30/2018

The mission of Dayton Independent Schools is to Inspire, Engage, and Grow each of our students. In 2017 our mission was accelerated by the wonderful donation of \$50,000 to Dayton High School to enhance our digital conversion vision of a one to one learning experience for our students.

The reason for this Digital Conversion is that we see the need to better prepare our students for the 21st century and provide them the necessary tools to be successful. Over the course of the 2017-2018 school year, Dayton High School has been working on transitioning over to the use of an Apple MacBook Air for teachers and now we are poised to make the transitions for students as seamless as possible.

This key donation made it possible to complete the funding of this program for our students. Working with Mark was a pleasure as he listened to what our priority needs were, asked great questions about our purpose and plan, and then delivered a key contribution that made our Digital Conversion possible.

We so greatly appreciate this wonderful support to help Grow our kids.

Jay Brewer
Superintendent of Dayton Independent Schools
