Mr. Mark Pfau

December 24, 2019

School New Technology Initiative  
208 8<sup>th</sup> Ave. #307 Dayton, KY. 41074

Dear Mr. Pfau:

On behalf of Technological College Preparatory World Academy, our teachers and staff, and the Board of Trustees of T.C.P. World Academy, I thank you profoundly for the gift of computer hardware, valued at \$40,000, that you made so generously this year to T.C.P. World Academy. Your kindness has filled the hearts of many people here with gratitude and appreciation.

With the computers and computer charging carts that you donated, we will be able to complete the process of providing a classroom computer for every child in our school. As a result, we can continue to focus on providing the technical foundation that our children will need to prosper in today's economy.

Every reminder of your generosity and caring inspires me, and all who work at T.C.P. World Academy, to give our best for our students. Your gifts help enable the children who come to our school every day, many from difficult and disadvantaged backgrounds, to access the resources that give them a better chance to succeed in life.

Again, I thank you profoundly and humbly for your generous gift. I am deeply gratified to know that all our children will benefit by your kindness.

Sincerely,

Karen French  
Superintendent/Principal  
Technological College Preparatory World Academy
